“Never forget how much you enjoy coding.” Those were words expressed to me from a client as I finished cutting his hair after a long talk about my experience in the Coding Bootcamp at the U of M. I enjoy the challenges given with each project and each new technology I have learned. I find them engaging and fulfilling, even more so when I have to struggle to get the final result. My ideal work environment would be a place where I get utilizing my full stack skills, working from the UI to the server. I would find greater value in a workplace where there are other developers who share my enthusiasm and have a desire to continue to learn.

## PROJECTS

## **EXPERIENCE**

---

### **GREAT CLIPS | WINDJAMMERS**

#### **Cosmetologist**

Minneapolis MN

June 2019 - present

As a cosmetologist at Great Clips I ensure that each customer receives a quality experience and a quality haircut. It's all about great customer service, and being able to thoroughly communicate with every customer to ensure their satisfaction. In addition to helping customers, it's also essential to keep a clean salon. Together the staff works as a team, to make sure that our salon meets and exceeds the states requirements for cleanliness by following the sanitation guidelines.

### **GREAT CLIPS | PB5**

#### **Cosmetologist / Manager**

Galesburg IL | Macomb IL

Aug. 2011 - Feb. 2017 | Oct. 2017 - June 2019

While working for PB5 (Great Clips) I was a hair stylist, and a manager. As manager, my tasks went beyond that of a stylist. I motivated my team to stay on task, made weekly schedules for the stylist, haircut training, and ensured customer satisfaction.

### **REGISTER-MAIL**

#### **Reporter (intern)**

Galesburg IL

March - May 2019

As an intern at the Register-Mail I was able to get involved and write articles on several community events. Towards the end of my internship I had my own column that focused on good deeds that happened within the community.
